

TECHNICAL UPDATE | APRIL 2024

Version 232 Update

Updated Version 232 (4/12/24) firmware is now available for download on Dealer Admin.

Improvements

Updated Version 232 (4/12/24) improves communication by decreasing the size of the messages sent to the Monitoring Center receiver. This allows the message to be processed at the receiver without having to reset the connection.

Obtaining the New Firmware

Com Series firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's [Product Software Downloads](#).
