

CUSTOM BRANDED KEYPAD

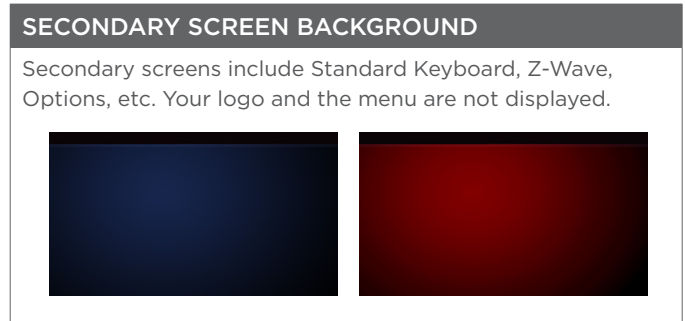

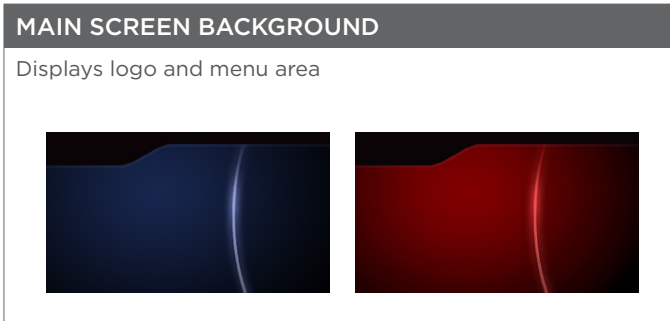

Customizable Elements

Below are the elements on the keypad that you can customize. The general position and scale of the keypad elements may not be altered.

SCREEN BACKGROUNDS

The main screen and all secondary screens reflect the alarm state of your keypad. When they are in alarm, the keypad background will be red. In the "normal" state, you have the option to choose your background screen color to match your corporate brand.

LOGO AREA

Your logo will be incorporated into the keypad design.

ATTENTION LIST BUTTON

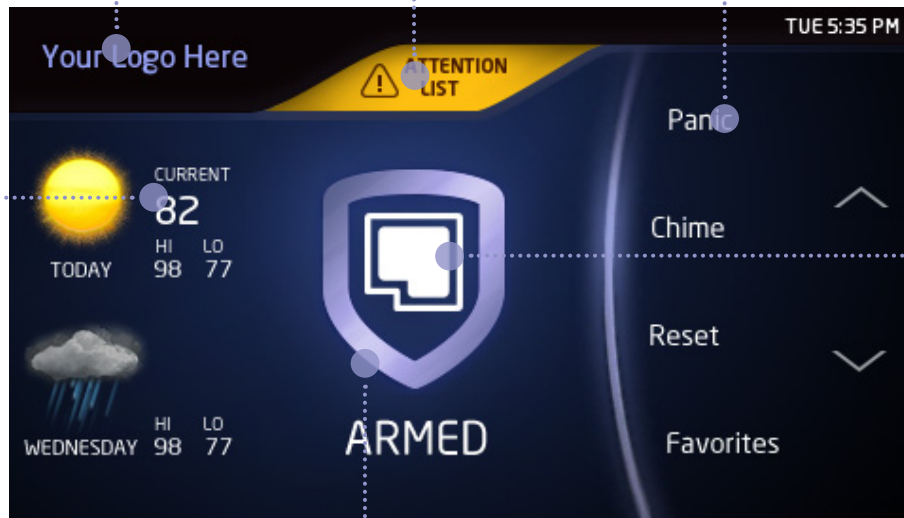

The color and shape can be designed to match your custom keypad.

TEXT FONT

You have two font options to choose from: Neo Sans by default or Roboto.

WEATHER ANIMATIONS

These standard weather animations can be changed.

ICONS

The only characteristic of the icon that can be customized is the color.

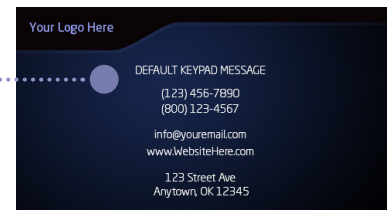

ARMING SHIELD

Animations for "disarmed," "armed" and "alarm" states can be customized.

CONTACT SCREEN

This screen uses your main screen background color choices and incorporates your logo. Please provide the contact information you want displayed.

Additional screens will be designed based on your custom selections. If you would like to see examples, please email PrivateLabel@DMP.com.
