

TECHNICAL UPDATE | DECEMBER 2023

Technical Update

Updated Version 221 (10/30/23) firmware is now available for XT30/XT50, XTLplus, and XTLtouch Series Control Panels.

Panel Improvements

Several cellular communications improvements were made in updated Version 221 (10/30/23). These improvements include better CATM1 network handling by ignoring the NBIOT category and by resetting communications if the cellular communications detect any connection errors.

Obtaining the New Firmware

Firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's [Product Software Downloads](#).
